

## PRIVATE TOURS – INDIVIDUAL / GROUP

Gone are the days when a guided tour simply means going through a slew of tourist catalogue attractions with a guide regurgitating the same commentaries *ad nauseam*. Journeys is one of the first to pioneer rigorously researched, topic-based special interest tours designed to inspire both locals and visitors to re-think common perceptions of Singapore. What's more, our broad-based yet thorough familiarity with the city's heritage, offers you the advantage of having several different interests woven into a single well-conceptualised itinerary. Then let our expert guides take you on the bespoke journey, sweetened with lots of wit and humour, to give you insider's scoop on things, from the peculiarities of local culture and society to Singapore's history from the time of good ol' Raffles and beyond.
